MEDSTAR Medical Management

As health care costs rise, you need the right tools and an integrated approach to manage your healthcare program and cut your medical program expenses. You can count on MEDSTAR Medical Management to deliver results and case management solutions for Workers' Compensation, Group Health, and Disability Management.

Our credentialed and experienced staff provides case management programs and services to both Occupational and Non-Occupational markets including: early intervention, utilization review, telephonic and field case management with a strong emphasis on disease and specialty case management, disability management, and multi-state and specialty peer review. We also provide customized wellness programs and return-to-work programs.

From early intervention through field case management services, we offer expert assistance to manage each case. Case Management is a collaborative process of assessment, planning, and coordination of care—a process that we skillfully direct through ongoing communication with the patient, providers, and claims staff. Our commitment delivers results: we improve quality of care and control costs while managing treatment to ensure optimum outcomes.

MEDSTAR Wellness Programs

A proactive approach to worksite health is the key to lowering healthcare costs. Our interactive Wellness Program services include health risk assessments, a personalized health score and recommendations to maintain or improve each employee's health, access to wellness coaching, behavioral lifestyle changes tailored to employee needs, and follow-up monitoring to achieve health benchmarks.

- ★ MEDSTAR's interactive Wellness Programs can be modified to meet the needs of your employees and company, as well as help you attract and retain key personnel. These programs have been proven to lower healthcare and insurance costs, reduce absenteeism, and improve performance and productivity.

MEDSTAR Network Solutions

MEDSTAR's integrated network provides access to some of the nation's best-known PPOs. Our large, national provider network is constantly growing and assures coverage everywhere. We offer not only a national network of medical providers and facilities, but also access to Durable Medical Equipment, Radiology, and Pharmacy networks.

- ★ MEDSTAR can develop a custom network to drive high penetration and higher medical cost saving for clients. Many of our inpatient facilities also have some of the deepest HMO discounts available.

MEDSTAR Medical Bill Review

MEDSTAR's Bill Review services include a thorough, comprehensive review and reading of medical reports, as well as additional audits for accuracy.

- ★ MEDSTAR's Bill Review delivers big savings to employers: Our highly trained bill review staff—along with state-of-the-art technology and analytical tools—provide claims efficiencies and **average savings well over 50%** for all types of medical bills
